## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 16 May 2001.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, and 13, drawn to navigation system to track a device in MRI or CT base imaging system, which belongs to class 600, subclass 407.

Group II, claim(s) 8-12, drawn to fiducial markers in MRI or CT based imaging system where the tracking of an object in the region of interest is in reference to the coordinates determined from the fiducial marker, which belongs in Class 600, subclass 414.

Group III, claim(s) 13-16, drawn to insertion of an apparatus, a catheter as claimed in claims 13-16 with sensor to provide tracking for navigation during surgical procedure, which belongs in Class 600, subclass 424.

2. The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I includes navigation system to track device in MRI or CT based imaging system. Group II is subcombination of providing tracking reference coordinates by use of fiducial marker. In addition, Group II is a subcombination of providing pointer or marker at the tip of an elongated surgical device along with the navigational system described in Group I. However, neither Group I nor Group II requires the navigation system as part of the invention. In addition, Group III is confined to pointer for a tracking device in a navigation system during surgical procedure where the tracking of a pointer is originated from sensor of an insert device such as a catheter. The claimed features in Group do not include limitations of either Group I or II above. Therefore, there are three distinct inventions.

3. A telephone call was made to Thomas J. Burger on January 27, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3737

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William Jung whose telephone number is 703-605-4364. The examiner can normally be reached on Mon-Fri 8:30 AM to 5 PM.
